

AMERICA'S LAWN VAC LEADER

AMERICA'S LAWNVAC LEADER

Originally founded in 1972, PECO has been a pioneer in the lawn care industry from our beginning. We are an independent, family-owned company driven to be the most recognized, innovative manufacturer of material collection systems and quality accessories for the outdoor power equipment industry. Our LawnVacs and other products are designed and built in America, to serve the needs of professional landscapers, institutions, and homeowners.

Our customers are at the center of everything we do. We design our products to be long lasting, easy to use, and to work like nothing else. Our products make your job easier.

PECO's experienced, knowledgeable staff is available to help our customers get the most out of our products. We maintain an extensive inventory of parts, ensuring you many years of use for your LawnVac or other accessory. We stand behind our products with a one year limited warranty.

Visit us at www.LawnVac.com to find information on our full product line, download manuals and parts breakdowns, locate a dealer, or ask a question 24/7.

PECO manufactures a range of collection systems to fit a variety of mowing platforms. Our Convertible and Estate Series trailers have solutions for garden tractors and compact tractors alike.

PECO's PRO Series line of attached collection systems for ZTR mowers is second to none in performance and technology. Our patented mid-mount PTO blower design is lighter and more efficient than competing deck-driven designs. Placing the blower in the middle of the flow allows the deck to discharge grass into the boot more naturally, reducing clogging and optimizing airflow at the discharge. The blower and deck engage separately for a more efficient energy transfer. This design also puts the weight of the heaviest component on the mower frame, not on the deck, improving quality of cut and eliminating extra strain on the deck belts. Our design makes switching between bagging and discharging incredibly simple—just pull one pin! Reattachment is also simple, no need for any tools. Many of the best known mower brands have selected PECO as their bagger of choice.

We are dedicated to constantly improving our products and serving our customers year after year. PECO is proud to be America's LawnVac Leader.

INNOVATION

The PECO PTO drive is a unique way to power our LawnVacs. So unique, in fact, that it has been granted a US patent. Unlike other baggers whose blowers are mounted on the deck and driven off the deck spindle, our blowers take their power directly from the engine. This allows the blower to engage independently of the deck, which reduces start up strain on the engine and belts. Making debris clean up easier and faster. We now have three versions of our PTO Drive available to fit your needs.

PTO MODELS

PTO-X:

- Our Most Advanced Commercial PTO Drive
- Designed Life of 1,000 Hours
- Electric Clutch Engagement
- Aluminum Housing and Cone
- 4 Gauge 4-Blade Steel Impeller
- More VAC Power
- Self-Tensioning Belt
- Fewer Moving Parts
- 1 Year Commercial Warranty

PTO-C:

- Designed for Commercial Use
- Manual Over-Center Engagement
- Aluminum Housing and Cone
- 4 Gauge 4-Blade Steel Impeller
- 1 Year Commercial Warranty

PTO-R:

- Designed for Residential Use
- Manual Lever Engagement
- Polyethylene Housing and Cone
- 7 Gauge 3-Blade Steel Impeller
- Lightweight
- 1 Year Residential Warranty

TRAIL-O-MATIC HITCH

Unique PECO Technology for Trailers

The PECO Trail-o-Matic hitch keeps the engine position fixed relative to your tractor as the trailer pivots. This exclusive feature keeps a constant length of hose from the boot to the impeller, which means no stretching or binding of the hose for better airflow and longer hose life.

Some people claim that mulching is superior to bagging, but that is only true if the grass is mulched correctly. If your mower is leaving clumps on your yard, you should be bagging your grass clippings. Clumps of grass can damage your yard by killing the grass underneath and providing opportunities for diseases to take hold. This is a particular concern in the spring when the grass is very moist and growing rapidly.

You can preserve the nutrients for the lawn by composting the clippings and spreading the compost on the lawn later in the season. Combine the 'green' grass clippings with plenty of 'brown' material, such as dried leaves for the best results in the composting process.

Fall is the other time of the year when bagging is important to many people. Using your mower to collect your leaves reduces their volume by as much as 6 to 1. This means fewer bags to dispose of, or better yet, a great start for your mulch pile. You'll save hours of raking, have a great looking lawn, and by composting, you can help the environment, too!

A Vacuumed Lawn is a
Beautiful Lawn

PRO2B⁺

Model 1209

Ultimate Lightweight Bagger

Mounted on Bad Boy Maverick

The **PRO2B+** is the perfect solution for smaller ZTR mowers. The Pro 2B+ features our PTO-R drive that easily deals with the heavy grass and wet leaves that plug up a weaker collection system. It's powerful, lightweight, and affordable; making it perfect for the homeowner.

Now available on select models: the commercial power of PTO-C or PTO-X.

3-Blade Steel Impeller & Cross Linked Polyethylene Blower Housing

Easy No Tool Removal
(Once Installed)

Rugged Linear Low Density Polyethylene Top with 2 Bags

Additional Features

- Comes Complete with Mounting Hardware and Any Necessary Weight Kit
- Lower Profile for Better Rear Visibility
- Adjustable Grass Dispersion Evenly Fills Bags
- Framed in Heavy-Duty Steel
- Quick and Easy to Install — No Tools Needed to Remove
- Polyethylene Filter Screen

Fits

- | | | | |

WAND KIT

Model A1858 – For Small Blower Housings

Model A1861 – For Large Blower Housings

Model A2228 – High Capacity for Large Blower Housings

Convert any PECO mower vacuum into the ultimate clean up tool. Its 18' of flexible hose and ergonomic handle allows you to get into hard-to-reach spots with ease. The wand kit is a great tool for anywhere your mower can't reach, such as planters, flower beds and ditches.

Works With

Small Blower Housings:

- Pro 2B+ • Pro 3B • Pro 12^{DFS}
- Convertible X20 & X30
- ES36 Estate Series
- ES36^P Estate Series

Large Blower Housing & High Capacity:

- Pro 22^{DFS} • Pro 24^{DFS}
- ES50 Estate Series
- ES50^P Estate Series

Features

- Lightweight and Easy to Maneuver
- Great for Cleaning Planting Beds and Difficult to Reach Areas
- Kit Includes a Wand Nozzle, Lightweight 18' Super Flex Hose, Hose Clamps, and Cone
- Easy to Attach

TRUCK LOADER

Model TL-10 Power With Your Pick-Up

With PECO power in a compact size, the Truck Loader turns your pickup truck into a powerful debris collection system. It mounts to a standard, 2" trailer hitch and uses PECO's proven impeller and blower housing connected to 25' of tough flexible polyurethane hose with an oversized nozzle and ergonomic handle. You provide the container, PECO does the rest.

Features

- Heavy-Duty Cast Aluminum Blower Housing
- 25' Length Hose, 8" Diameter and 7" Diameter Upper Hose
- Standard Wand Kit Hose Handle
- Heavy-Duty 5-Blade Steel Impeller
- Will Work With Any Standard 2" Receiver Hitch

Drive Options

- Briggs & Stratton 10hp Vanguard Electric Start Gas Engine

Z-TRIMMER

Model ZT-3000

Trim While You Mow

Easy to install and simple to use. The lightweight Z-Trimmer is easily mounted to virtually any fabricated mower deck and runs off the mower's battery. Obstacles are not a problem as the Z-Trimmer is spring-loaded to swing away from any obstruction. It's a great tool to speed up regular maintenance of your yard or fence lines.

Features

- Operating Range of 10-30 Amps
- Easily Folds for Transport Locks into Place to Prevent Movement While Not in Use
- Shaft Debris Shield
- Cast Aluminum Fixed Head
- Resettable Circuit Breaker
- 140° Range of Head Movement for Trimming or Edging
- Mounts Directly to Most Decks by Drilling Two Holes
- 20" Reach From the Edge of the Mower Deck
- 4600rpm 12V DC Motor with Sealed End Cap
- Improved Wiring Harness
- Quick & Easy Assembly
- Recommended for Mowers with 48" Decks or Larger & Having 20" of Clearance From Edge of Deck to Mower Frame
- Comes Bolt-On Ready to Install and with 48 Pieces of Replacement Trimmer Line
- 1 Year Residential Warranty

Requirements

- Mower Must Have a Minimum 15 Amp Charging System to Power the Z-Trimmer
- Designed for Use on Regularly Maintained Areas
- Recommended Run Time: Approximately 20 Minutes Per Hour of Mowing

Bracket Shown is for Display Purposes Only. Not Suitable for Field Use.

POWER SPRAYER

Heavy-Duty Model

No need for pumping with the Original Power Sprayer. It's completely self-contained, and rolls easily over lawns and gardens. The wand is always right at hand for a powerful, long-lasting, and adjustable spray. The spray nozzle adjusts from a fine mist to a 40' stream. Can spray up to 6 hours on a full charge, and the wide-mouthed container can hold up to five gallons. Our heavy duty version offers Viton seals and a polyethylene handle for corrosion-resistant performance.

Features

- Eliminates Hand Pumping or Lugging a Heavy Tank on Your Back
- Self-Contained 12V Electric Sprayer
- 14" Wheels
- Lightweight Aluminum Cart
- Electric 40 PSI Pump Runs up to 6 Hours
- Heavy-Duty Gel Cell Rechargeable Battery
- Auto Shut-Off When 40 PSI is Achieved to Save Battery
- Wide Mouth 5-Gallon Container
- Spray Adjusts from a Fine Mist to a 40' Solid Stream
- 18" Brass Extension Wand
- 8' Hose with a Quick-Release Hose Hanger
- Extra Tank, Battery and 100' Hose Are Also Available
- Heavy-Duty Model has Upgraded Viton Pump Gaskets and Poly Spray-Wand

PTO GENERATOR

Power Anywhere

PTOG-0010
10kw

PTOG-0016
16kw

PTOG-0022
22kw

Use your tractor to provide the power you need, when you need it! Eliminate the extra costs of owning and maintaining a separate engine for your generator. PECO's PTO Generator is powered by your tractor's 540 rpm PTO. The high-quality, Italian-made alternator is practically maintenance free and provides clean, low distortion power. Automatic voltage regulation is standard on the 10kw and 16kw models. Fits any Category 1 or 2 three-point hitch. Whenever and wherever you need power, hook up your tractor and plug in!

Features

- 100% Copper Windings
- High Power Quality, Low Distortion (THD)
- Automatic Voltage Regulation Standard on 10kw & 16kw Models (Clean Power)
- Lifetime Pre-Sealed Maintenance Free Bearings
- All Units Rated for Continuous Output
- Exclusive 3 Bar LED Meter
- Individually Protected Circuits
- Standard Duplex and Welder Receptacles
- Equipped with "Full Load" Outlet
- Limited Two Year Warranty
- Cast Iron Gearbox
- Fits Category 1 or 2, Three-Point Hitch

SUN SHADE

New from PECO! Universal Sun Shade!! Our easy to install sun shade mounts to most ROPS tube systems, protecting the rider from the heat, glare of the sun and rain. The UV Stable Plastic retains its shape and color. It's lightweight and installs in 15 minutes, with just a wrench. It is easily removable for folding ROPS or travel between jobs.

Features

- Made from UV Stable Plastic
- Fits Mower's ROPS Tube Systems:
 - 2" x 2"
 - 3" x 1.5"
 - 3" x 1.75"
 - 3" x 2"
- Also Available for Round ROPS Systems
- Measures 36" x 41" x 4"
- 30° Range of Motion
- Fully Adjustable to Level Position on Forward or Rear Leaning ROPS
- Ships via UPS
